Welcome Letter

Dear Drupal Enthusiast:

Sincerely,

Kieran Lal
A Special Thanks

We would like to thank the following Platinum sponsors for helping us make Drupalcon Boston 2008 a success.
# Conference at a Glance

Industry Networking Events

To help develop the Drupal community and invite an even wider audience to take part in Drupalcon we are planning a series of industry networking events. These events are taking place a short walk from the conference center immediately following the Drupal job fair.

**Non-profit Event**
*Hosted by Eric Gunderson of Development Seed and Gregory Heller of CivicActions*
Lorem ipsum dolor sit amet, consectetur adipiscing elit. Integer mollis enim molestie turpis.

Sea Port Bar & Grille  
150 Northern Ave  
Boston, MA 02210  
Tel: (617) 357-8121

**Education Event**
*Hosted by Bill Fitzgerald, Funny Monkey and Tao Starbow, UC Berkeley*
Lorem ipsum dolor sit amet, consectetur adipiscing elit. Integer mollis enim molestie turpis.

Sea Port Bar & Grille  
150 Northern Ave  
Boston, MA 02210  
Tel: (617) 357-8121

**News Event**
*Hosted by Rickard, Morris Digitalworks, Mike Meyers, NowPublic.com*
Lorem ipsum dolor sit amet, consectetur adipiscing elit. Integer mollis enim molestie turpis.

Sea Port Bar & Grille  
150 Northern Ave  
Boston, MA 02210  
Tel: (617) 357-8121

**Media Event**
*Hosted by Jim Edgett, Achieve Internet*

chiefdave2@msn.com

Steven Edwards
Senior Policy Advisor
Bureau of Justice Assistance
810 7th Street, NW
Washington, DC 20531
Ph: 202.307.0500
steven.edwards@usdoj.gov
Job Listings

User interface geniuses. Acquia has lots of web-based interfaces to build for its own products and services. Plus, Acquia wants to contribute significantly to UI-related development in the Drupal project. We want to aim really, really, really high here. Apply at Acquia http://acquia.com/jobs.

Marketing gadfly. Known in less exciting companies as a “marketing director”, this person will be the rock star marketeer who knows how to create high profile awareness with a low profile budget and have fun doing it. Apply at Acquia http://acquia.com/jobs.

Techno-junkies. You know -- engineers, programmers, developers; people who live and love actually building stuff for people to use - not just talking about it. People who are “only” thinkers, architects, or who want others to write code need not apply. (Just as with any open source project, respect and authority comes by doing and earning it - not claiming it.) Apply at Acquia http://acquia.com/jobs.

Reality checkers. QA in the web world is a unique challenge. In many ways it is different from traditional software QA, but remains just as important - if not more so, given the dynamic rate at which new web service technology can be deployed. Apply at Acquia http://acquia.com/jobs.

Customer’s best friend (TAC lead). When you’re in the open source business, it’s completely clear that customers only use the paid alternative when the customer service is truly great. Apply at Acquia http://acquia.com/jobs.

Customer’s best friend (TAC lead). When you’re in the open source business, it’s completely clear that customers only use the paid alternative when the customer service is truly great. Apply at Acquia http://acquia.com/jobs.

Customer’s next best friend (inside sales lead). If sales is done right, our customers will look forward to talking to us - not dread it. Above all else, this means having the right people. Our first hire, (a)other player/coach, will help us build a small team of people who know and love our technology as well as our customers do, and love our customers most of all. Apply at Acquia http://acquia.com/jobs.

(Just as with any open source project, respect and authority comes by doing and earning it - not claiming it.) Apply at Acquia http://acquia.com/jobs.

Reality checkers. QA in the web world is a unique challenge. In many ways it is different from traditional software QA, but remains just as important - if not more so, given the dynamic rate at which new web service technology can be deployed. Apply at Acquia http://acquia.com/jobs.

Customer's best friend (TAC lead). When you're in the open source business, it's completely clear that customers only use the paid alternative when the customer service is truly great. Apply at Acquia http://acquia.com/jobs.

Customer's next best friend (inside sales lead). If sales is done right, our customers will look forward to talking to us - not dread it. Above all else, this means having the right people. Our first hire, a(nother) player/coach, will help us build a small team of people who know and love our technology as well as our customers do, and love our customers most of all. Apply at Acquia http://acquia.com/jobs.

Techno-junkies. You know -- engineers, programmers, developers; people who live and love actually building stuff for people to use - not just talking about it. People who are "only" thinkers, architects, or who want others to write code need not apply. (Just as with any open source project, respect and authority comes by doing and earning it - not claiming it.) Apply at Acquia http://acquia.com/jobs.
